1 Amendment of *eircom's* Customer Sited Interconnect prices

eircom published in its Reference Interconnect Offer (RIO), prices for Customer Sited Handover (CSH) transport links on 16th July 2003. This product is closely related to the existing Customer Sited Interconnect (CSI) product. Following the publication of the CSH prices, it became apparent that there was an anomaly between the prices of CSH and CSI.

In the coming days, *eircom* will amend their RIO modifying the CSI price to remove this anomaly. This amendment will result in a reduction of CSI prices as detailed below. In the interests of completeness, prices for CSH, which are unchanged, are also shown.

Schedule 100 – Table 1 (CSH)

Element Charge	€
Paper Migration of existing path	1811.11
New Connection	2352.33
New Connection with 1+1 Card protection	2428.22
