Amendment to Table 1 in Retail minus wholesale price control for the WBA market (D1/06: ComReg document 06/01)

Introduction of 12MB wholesale product and amendment to 6MB wholesale price

Document No:	07/103
Date:	14th December 2007

1 Amendment to Table 1 in ComReg decision notice D1/06

The Commission of Communications Regulation (“ComReg”) has been notified by Eircom wholesale of its intention to introduce a 12MB Broadband product. Therefore, the decision notice D1/06 (“Retail minus wholesale price control for the WBA market”) table in section 4.5.3 requires amendment to reflect this product introduction and also an amendment to the 6MB wholesale price.

ComReg would also like to note that both ComReg and Eircom have in recent weeks commenced a review of the price control table in general. It is planned to update the table contents to reflect recent and possible future developments in the Broadband market, and also to reflect more up to date costing and volume information. It is hoped that this will be completed by early 2008 and that a revised table may be issued then to reflect any changes deemed appropriate by ComReg.

As of today, Friday 14th December, Table 1 in section 4.5.3 of ComReg Decision Notice D1/06 is amended as follows:

Table 1
