- (2) Where electronic communications infrastructure and any associated physical infrastructure is replaced or improved by a network operator in the course of relocation due to road improvement, the road authority shall pay only the costs directly attributable to work done to electronic

communications infrastructure and any associated physical infrastructure as a result of road works which would have been incurred if the electronic communications infrastructure and any associated physical infrastructure existing immediately before the road improvement had been relocated.

 - (ii) the person making the request has not taken reasonable steps to reach an agreement on physical infra-structure sharing.
- (6) The Commission shall resolve a dispute referred to in subsection (4) in accordance with procedures established and maintained by it and the procedures shall be made available, on a request being made for that purpose, to interested parties free of charge.
- (7) In making a decision in relation to a dispute, the Commission may impose conditions for physical infrastructure sharing and such conditions may include, but not necessarily be limited to-
 - (a) conditions in respect of conformity with the relevant standards relating to establishment, operation, maintenance and repair of electronic communications infrastructure and physical infrastructure,
 - (b) compliance with essential requirements or the maintenance of the quality of electronic communications services or both, or
