

Interim response to Fixed Wireless Access consultation submissions

A very encouraging response was received to the Director's recent consultation document "Extending Choice ... Opening the market for Fixed Wireless Point to Multi-point Access services". In total 27 submissions were received from the organisations listed below. The views expressed in the submissions are very much appreciated and will be given full consideration by the office.

It had been indicated in the consultation paper that the Director intended to issue a response by 19 October. However, due to the volume of submissions received, it has not been possible to issue this response as yet. A response will be finalised in the coming weeks and will be posted on the ODTR website as soon as it is available.
