

Commission for
Communications Regulation

Media Release – 9th June 2003

Radio Use For 2003 Special Olympics Games 21 – 29 June 2003

The Commission for Communications Regulation (ComReg) wish to notify operators and users of radio equipment (PMR, Radio Links) that since the Games rely heavily on the use of radio, some channels may need to be shared during the event. Operators and users affected are requested to facilitate the operation of the Games Organisers' radiocommunications.

The main venue for the opening and closing ceremonies will be Croke Park on 21 and 29 June with sports events taking place in 22 locations in the Greater Dublin Area between those dates. Details of the venues can be found at the 2003 World Games website: www.2003worldgames.com

Information requests or queries regarding radio licensing issues during this period can be directed to:
