Television Deflector Licensing Application Form

Document No:	ComReg 00/23R
Date:	December, 2002

NOTES FOR APPLICANTS

This application form is designed for individuals or organisations that wish to apply for a licence to operate a television deflector service¹. Please read the accompanying document 00/24 "Guidance Notes for Applicants – May 2000" and the Wireless Telegraphy (UHF Television Programme Retransmission) Regulations, 1999, S.I. No 348 of 1999 before completing this application. Documents 99/32 "Consultation Paper on Deflector Licensing" and 99/55 "Television Deflector Licensing - Report on the Consultation" will provide additional background information. Applicants should also consider the availability of frequencies applied for by reviewing the frequency listings in both Documents 99/66R and 00/25.

The application form is structured into three parts,

- Part 1 covers details of the applicant,
- Part 2 relates to the application area and financial aspects,
- Part 3 relates to the technical aspects of the service proposed.

A non-refundable application fee of £200 in respect of each frequency channel applied for at each re-transmitter site must be submitted along with the completed application form. *(E.g. if four channels are being applied for then £800 will be required, if four channels are being applied for at two re-transmitter sites then £1,600 will be required).*

Your application will be evaluated based on the information given in your completed application together with any supplementary information requested by the Commission. It is in your interest as an applicant to provide all the information requested in the succeeding sections of this form.

Every effort will be made to process applications quickly so that licences can be issued at the earliest possible date. To facilitate processing, please ensure that your application is complete and clearly set out (preferably typed).

3 copies of the completed application form and supporting material should be submitted in a sealed envelope or package, clearly marked "**Application: Deflector Television Licence**" and addressed to:

Mr Pat McMahon
ComReg,
Abbey Court,
Irish Life Centre,
Lower Abbey Street,
Dublin 1.

¹ Applicants should be aware that there is currently a question as to the extent of a licensee's rights under an MMDS licence granted under the Wireless Telegraphy (Television Programme Retransmission) Regulations, 1989 in areas of Counties Tipperary, Kilkenny, Carlow and Laois along with parts of Counties Waterford, Wexford, Wicklow, Kildare and Offaly. The Commission expects that the matter should be resolved within the time frame contemplated for the consideration of applications. Accordingly, while applications will be accepted and considered in respect of the affected areas, the grant of any licences in respect of those areas will be subject to the satisfactory resolution of the matter.

Declaration by the applicant

I hereby declare / I hereby declare on behalf of the applicant:

I have read the Television Deflector Licensing Guidance Notes for Applicants – May 2000, Document No. 00/24 and the Wireless Telegraphy (UHF Television Programme Retransmission) Regulations, 1999, S.I. No 348 of 1999 and noted the contents thereof.

I shall at all times comply in every respect with the terms and conditions attached to any licence that may be awarded to me / the applicant and to any subsequent amendment to the terms and conditions of such licence.

I shall at all times comply with the provisions of the Wireless Telegraphy (UHF Television Programme Retransmission) Regulations, 1999, S.I. No. 348 of 1999.

I accept that a licence, if granted, will not authorise retransmission to an area where there would be interference from other lawfully operated services.

I shall arrange the security bond and pay the appropriate licence fee within 21 days of the offer of a grant of licence.

All information provided on this form, including all documentation attached, is true and accurate.
