Date:	10, December 2008

Consultation on the Treatment of Regulated Services within Bundled Retail Offers

In Consultation Document 08/05, ComReg set out a proposed framework for the monitoring of regulated services within bundled retail offers.

ComReg's proposals were notified to the European Commission on the 4 December, 2008 in accordance with EU and domestic legal notification requirements.

ComReg is currently in the final stages of considering the views of respondents to its consultation and drafting a decision which will set out a regulatory framework and obligations in relation to regulated services within bundled retail offers.

Subject to receiving and considering the views of the European Commission, ComReg intends to issue its final decision in January, 2009.
